

EJEMPLO DE DO-WHILE

ISAAC ACOSTA RODRÍGUEZ

The image shows a code editor window titled 'dowhile.c' with the following C code:

```
#include <stdio.h>

main()
{
    int digito=0;
    system("color 9a");
    do
    printf("%d ",digito++);

    while (digito<=18);
    getch();
}
```

Overlaid on the code editor is a screenshot of the program's execution. The window title is 'E:\UNAM F.I\Computacion\PROGRAMAS\dowhile.exe'. The output is a blue background with green text displaying the numbers 0 through 18, followed by a cursor. The window has standard Windows controls (minimize, maximize, close) and a scrollbar.
